Career Objective

A passionate Software Engineering student aspiring to pursue a Software Engineer role, with proficiency in C++, Java, and a strong foundation in data structures and algorithms. Skilled in full-stack web development and software engineering, with experience building scalable, high-performance applications and AI-powered solutions. Possess strong problem-solving, teamwork, and leadership skills, with hands-on experience developing real-world projects and contributing to technical initiatives. Eager to leverage technology to build innovative software solutions and continuously grow as a software professional.

Education

Bachelor of Engineering in Computer Science (2025 - present)

[Chandigarh University, Mohali, Punjab](#) - CGPA 6.1

Relevant Coursework: Object-Oriented Programming, Data Structures and Algorithms, Operating Systems, Databases, Computer Networks, Machine Learning, Internet of Things (IoT), Cloud Computing

Higher Secondary Education: CBSE Board (2023 - 2025)

[S.A.V School, Raxaul, India](#) - Percentage:65

Secondary Education: CBSE Board (2021 - 2022)

[Cambridge Public School, Raxaul, India](#) - Percentage:70.1

Projects

Online Shopping Platform | Next JS, Firebase, Clerk, CSS Sep 2025 - Dec 2025

- Developed a full-stack e-commerce platform with user authentication, product catalog, shopping cart, and secure checkout.
- Integrated Firebase for real-time database management, authentication, and order tracking.
- Designed a responsive user interface that improved shopping experience and streamlined online order management.

MovieMateHub - Movie Review & Discovery Platform | Next JS, React JS, Firebase, TMDB API July 2025 - Nov 2025

- Developed a full-stack movie discovery platform using Next.js, React.js, Firebase, and TMDB API with authentication and real-time movie data.
- Integrated TMDB API to provide movie details, ratings, trailers, cast information, search, and genre-based recommendations.
- Designed a responsive, user-friendly interface with watchlists, reviews, and advanced filtering, enhancing the overall user experience.

Technical Skills

Languages and Frameworks : C++, Java, Python, React JS

Databases : Firebase Realtime Database

Development Tools & Technologies : VS Code, Android Studio, GitHub, API Development, NLP

Interpersonal Skills

- Communication
- Collaboration
- Problem-Solving

Achievements

- Built and deployed multiple full-stack web applications using React, Next.js, Firebase, and GitHub.
- Ranked among the top performers in multiple hackathons, showcasing strong problem-solving and teamwork skills.
- Led the UI/UX and Design Team at Sci-Fi Innovation Club, driving the design and development of club projects.

Certifications

- The Complete Full-Stack Web Development Bootcamp - Udemy
- **Google AI Essentials** – Google
Introduction to Generative AI- Google Cloud Skills Boost
- **Web Development in HTML5 and CSS3** – Coincent
Microsoft Certified - Azure AI Fundamentals (AI-900)

Hobbies and Interests

- Competitive Programming
- Building Side Projects
- Problem Solving
